EXAMINER'S COMMENT

1. The portion of preliminary amendment to specification filed on 11/13/2001 will not be entered because it introduces new paragraphs referring to some canceled claims.

REASONS FOR ALLOWANCE

2. Claims 25-29, 32-41 and 44-48 are allowed.
3. The following is an examiner's statements of reason for allowance:

The examiner has found that the prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims and subsequent dependent claims. The prior art of record fails to teach or suggest a method and system for performing an interworking processing in a data connection between a first terminal supporting a first processing scheme and a second terminal supporting a second processing scheme comprising providing by the interim network element an interworking function for adapting the first processing scheme to a second processing scheme wherein first and second processing schemes correspond to first and second error correction schemes and wherein replacing a negotiation symbol indicating first error correction scheme by a negotiation symbol indicating second error correction scheme and replacing a negotiation symbol indicating second correction scheme by a negotiation symbol indicating the highest common error correction scheme supported by the first terminal and the interworking function. Also, the prior art of record fails to teach or suggest replacing a negotiation symbol indicating first error correction scheme by a negotiation symbol indicating the lowest available error correction scheme.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
